

Spin-outs Day: Creating the best conditions for Research-based businesses

Knowledge sharing, new learning, and tools

“Spin-outs Day” 26th of October 2023 in Copenhagen

On behalf of the Villum Foundation funded program, Spin-outs Denmark, the eight Danish universities invite *upcoming spin-outs (research-based companies), founders and co-founders, curious researchers with results of commercial potential, and the entire spin-out ecosystem* to join us to discuss how we can create the best possible conditions for spin-outs in Denmark.

We invite you to a day of knowledge sharing, new learnings, and interesting discussions. We will present and discuss **how to fund your spin-out, how to set up your team (and find the right people), spinning out as part of an academic career and finally we will create the ultimate spin-out toolbox.**

This day will be highly interactive and a mix of talks and break-out sessions. Our aim is to leave with a clearer vision for how we can ensure that spinning out will (continue to) be an attractive opportunity for researchers across all Danish universities.

The conference is held on the 26th of October from 10.00-16.00 at Copenhagen Business School (Ovnhallen, Porcenlaenshaven 20, Frederiksberg). The day ends with bubbles, canapes, and networking.
